It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book I have ever read through during my individual life and might be the finest publication for ever.

John Ambrose, who had the foresight and dogged determination to force the city to create a deep water channel (later named for him) to ease shipping in and out of the harbor. The Moran and McAllister tugboat families. Lighthouse Kate, barely five-feet tall, who operated Robbin s Reef Light on a hidden ridge of submerged rocks that once caused numerous shipwrecks. John Newton, the Army engineer who, after a less than heroic career in the Civil War, finally removed the obstacles from Hell s Gate passage by designing the biggest man made explosion in history without shattering a pane of glass and with his daughter pulling the switch. Dynamite Johnny O Brien, a pilot known for his skill guiding windjammers through the treacherous currents of Hell s Gate became an American hero to Cuba. Emily...
