Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Author T. M. Lawley tells readers that Pride is Not Vanity in pro-active feminist story. Inspired by the desire to encourage transparency across a wide sector ranging from family dynamics, gender, media, mental illness, equality, diversity, church and politics; and to examine the role of the traditional and modern family, author T. M. Lawley pens an insightful and powerful allegory of Australian society. Pride is Not Vanity is a tale of the search for clarity in a place caught in the middle of a paradigm shift, a social transition between the traditional and historical, and the fruits of change and modernity. A fictional Australian country town tries to bridge the cultural divide, an act that symbolizes the growing pains of modern Australia. It continues to rely on the perspectives formed by church and politics, which are driven by the momentum of the past, as well as the relatively new and evolving concepts of feminism and the search for equality. It follows a family that experiences tensions and conflicting interpretations between personalities, which too often have effects lasting an entire lifetime, unless resolved by valuing transparency and accountability between individuals - an act that fosters confessional freedom. Through her narrative, Lawley shows that exposure to common experiences, even those that are deeply challenging, promotes and allows for transcendence towards more meaningful and engaging relationships between families, communities and individuals. Her message is that many trials can be overcome with the conscious choice of optimism over despair. To ignore these universal dilemmas that continue to affect society, such as depression, is to stay stuck in the past, bogged down by ignorance, secrecy and a misguided preservation of dignity. Pride is Not Vanity...
