It will be necessary to thoroughly clean and paint the lock-gates during February of next year, which is the time of year approved by the United States Engineers for closing the lock to navigation. The drawbridge roadway surface has been replanked twice and some of the underplank renewed. The operation of the boilers was discontinued from May 14 to October 15, and during this time the plant has been thoroughly overhauled and the boilers inspected by the State Inspector. The concrete masonry bearing of the lower set of gates of the small boat-lock cracked away from the main walls and became unsafe. It has been removed and replaced by new reinforced concrete. This work required the placing of the stop-plank and the pumping out of the lock during its progress. The interiors of all sluices were pumped out for...
